

# RENEXPO INTERHYDRO

Europäische Wasserkraftmesse mit Kongress  
European hydropower trade fair with conference

**When?**  
**28<sup>th</sup>–29<sup>th</sup> November 2019**

**Where?**  
**Salzburg Exhibition & Congress Center**

### 2018 facts & figures

- 125 exhibitors
- 467 congress participants
- 2500 international visitors

### Expo themes

Planning and implementation of construction  
Advice  
Water collection  
Hydropower water supply lines  
Turbines  
Generators  
Measurement, control, regulation  
Safety and security mechanisms  
Maintenance and modernisation  
Electricity trading  
Fish protection and passage

Partner country 2019: Italy

The RENEXPO INTERHYDRO is Europe's no. 1. hydroelectrics industry gathering and the 11th edition is to be held at Salzburg Exhibition & Congress Center on the **28<sup>th</sup> – 29<sup>th</sup> November 2019**

Industry experts meet at this specialist hub serving to link up eastern and western Europe. The RENEXPO INTERHYDRO highlights the contribution hydropower makes to safe, sustainable, affordable and climate-neutral energy provision.

### Clear competitive advantage\*

- 88 % of visitors intent to return
- 71 % of visitors involved in purchasing decisions
- 95 % of exhibitors would recommend the fair to others

\*According to polls at the RENEXPO 2018

# RENEXPO INTERHYDRO

Europäische Wasserkraftmesse mit Kongress  
European hydropower trade fair with conference

The RENEXPO INTERHYDRO addresses everyone employed in hydropower businesses and industries, authorities and municipalities, politicians and associations, scientists and researchers, from all over Europe.

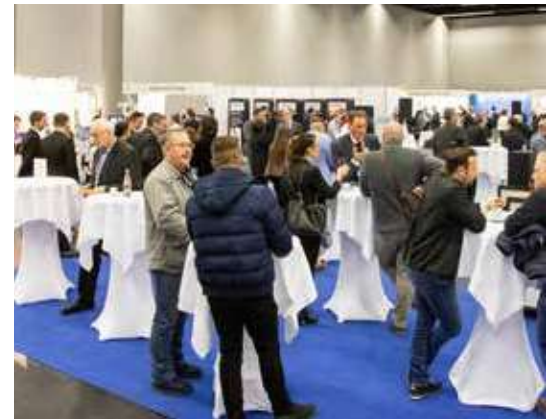

## Congress:

The 2-day congress attracts the who's who of the hydropower industry. Current issues such as political and legal frameworks, practical experience, components in power station construction, energy storage, maintenance and modernisation, and ecologically acceptable hydropower plant construction are introduced and discussed by groups of experts.

## Exhibitors:

The fair is a stage upon which highly renowned companies showcase goods and services from the entire hydropower value chain – including Kaplan, Francis and Pelton turbines, generators, sealings, pipes and other power plant components – power plant control systems, project administration, plant maintenance and optimisation, measuring and regulation technology, electricity trading and direct marketing.

## Networks:

The event has the support of a large network of domestic and international organisations: Bundesverband deutscher Wasserkraftwerke e.V. (BDW) with VWB, LGBW, AWK BW, IGW, Kleinwasserkraft Österreich, European Renewable Energies Federation (EREF), VGB PowerTech e.V. and Arbeitsgemeinschaft Alpine Wasserkraft (AGAW).

## Target groups:

- Manufacturers
- Planners
- Operators
- Energy providers
- Investors
- Project developers
- Associations
- Authorities
- Politics and media
- Science and research

Once again in 2019, the RENEXPO INTERHYDRO will be a unique stage for knowledge transfer, the sharing of experience and the establishment of new contacts. The event highlights the latest technical advancements for hydropower plants and gives visitors great opportunities to network. A highly qualified advisory committee, made up of representatives from universities, industry associations, business sectors and the media, guarantees the standards at the show are excellent.
