"The Outlook for the Oil and Gas Industry in the Mediterranean 2020 & Beyond"

With the global economy reeling from the COVID-19 pandemic, **no industry has been hit as hard as the Oil & Gas sector**. With a rapid decline in US & EMEA hydrocarbon demand, many projects have been **severely impacted** by the record drop in crude oil prices.

Many frontier E&P projects retain a profitability margin in excess of \$60 per barrel and with a sluggish outlook for demand recovery, many operators are consolidating existing projects as opposed to maintaining plans to explore in frontier basins. The Eastern Mediterranean is no exception and this **free-of-charge webinar will assess the following the key issues facing key stakeholders in the region**.

OUR SPEAKERS INCLUDE:

Ashutosh Shastri
Director & Founder
Enerstrat Consulting
(Moderator)

Yannis Bassias
Former CEO
HHRM

Ahmed Sultan
Head of the Petrophysics
Department
Tharwa Petroleum

Don't miss out on this insightful webinar to assess the short to medium term outlook for the region!
